

## SUMMARY

---

I am a highly motivated individual, with previous experience in app development. I always dedicate myself to my work ethic, I am a quick learner and can adapt to different working conditions, as I have had many roles in my previous workplaces from helping clients express their ideas into reality to quality controlling projects to ensure its professionalism, I see myself as a productive person and will always give my all; I have a proven track record of project management and team collaboration. I have worked directly with clients and delivered excellent service to them. I am looking for a company that seeks a hard working individual to assist their team and goals.
